

Through Design

Policy 1 - 4 tally marks for important

Modifications: "Appropriate locations" = available water

Policy 2 - 5 tally marks for important, 1 tally mark for strike with caveat:

May be different if an OW

Keeping water there on site

Policy 3 - 6 tally marks for important

Policy 4 - 5 tally marks for important

Policy 5 - 5 tally marks for important

More Info = Good

Policy 6 - 6 tally marks for important

Who is determining "best management practices"?

Policy 7 - 7 tally marks for important

Near available water- water service district

Policy 8 - 7 tally marks for important

Policy 9 - 4 tally marks for important, 3 tally marks for strike

Too in the weeds?

Policy 10 - 6 tally marks for important, 1 tally mark for strike

Who decides what's an important area?

Reduce solar radiation on asphalt

Questions about how thresholds or standards are decided and who decides that

Landscaping

Policy 1 - 6 tally marks for important, 1 tally mark for strike

Conserve water rather than aesthetics

We want architects to have a large list to choose from

Flexible, "architects can propose additional plants to list"
No additional water

Policy 2 – 4 tally marks for important, 3 tally marks for strike

HOA Lawn requirements

Burdensome on individual

Policy 3 – 7 tally marks for important

How much? Tree next to home with addition

Policy 4 – 5 tally marks for important, 2 tally marks for strike

Provide some flexibility "encourage"

Policy 5 – 7 tally marks for important, * yes under strike column

Policy 6 – 6 tally marks for important

Policy 7 – stopped at this policy, no discussion
