**The Advanced Manufacturing Technician Apprenticeship Program is a nine-week certification program designed to certify candidates with the skills necessary to build electronics hardware and develop an exciting career in space operations.**

**Participants are paid and offered benefits during the nine week training program. Candidates who successfully complete the program may be offered full-time employment at Lockheed Martin.**

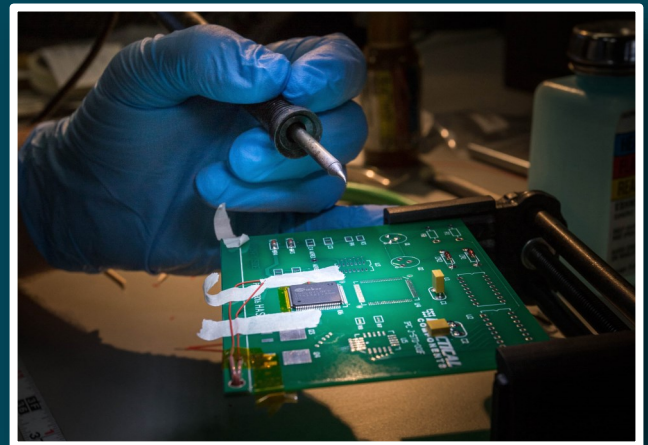

**Spring Class Starts**

**April 6, 2020**

**No Experience Necessary**

**The curriculum includes solder certification, cable harnessing and conformal coating training.**

**Training takes place on the Waterton Campus and is taught by Lockheed Martin Space instructors.**
