

## Coordination and Outreach-First Draft Policies and Outcomes

Proposed Goal/Policy	Outcome after comment period
<p>Goal: Develop and maintain partnerships and joint outreach programs with water providers.</p>	<p>Broadened language and changed this to Policy 1 in the Long Range section, Outreach, Water. Language will read: “Develop and maintain partnerships and joint outreach programs with water providers, Jefferson county municipalities, and other entities with water/hydrologic expertise and common water education goals.”</p>
<p><b>Policy</b></p>	
<p>1. The County should engage with water providers to share issues of mutual concern on a periodic basis and work collaboratively to address long-term water supply concerns.</p>	<p>Added verbatim to the Long Range section, Water, Coordination, as Policy 5.</p>
<p>2. Create a list of water providers by Area Plan.</p>	<p>Added verbatim to the Long Range section, Water, General, as Policy 5.</p>
<p>3. Encourage continued collection and analysis of data for the purpose of better determining the extent and availability of groundwater.</p>	<p>This is very similar to existing policy 2 in the Long Range section, Water, Ground Water. Broadened language in that policy to read: “Encourage continued collection and analysis of data to evaluate the extent, availability, trends, and quality of Ground Water resources and forecast future extent and availability considering climate change effects and potential drought conditions in the Mountain Ground Water Overlay District.”</p>
<p>4. Work with the CSU Cooperative extension to create a Xeriscape program to educate residents about the benefits and proper maintenance of low water use landscapes.</p>	<p>Added verbatim to the Long Range section, Outreach element, as Policy 2.</p>
<p>5. Coordinate with water providers on water conservation education for residents and businesses about ways to conserve water in their homes and businesses.</p>	<p>Broadened language and added to the Long Range section, Outreach, Water as Policy 3. Language will read: “Collaborate with partners on water conservation education about ways residents and businesses can conserve water in their homes and businesses.”</p>

<p>6. Landscaping regulation updates should be complemented by an education program for residents, developers and builders to maximize the potential of water-conserving landscape design.</p>	<p>Added verbatim to the Long Range section, Water, Conservation, as Policy 6.</p>
<p>7. Encourage special districts to include water conservation measures in their utility master plans.</p>	<p>Added verbatim to the Long Range section, Water, Coordination, as Policy 6.</p>
<p>8. Support implementation of water provider conservation projects.</p>	<p>Added verbatim to the Long Range section, Water, Coordination, as Policy 7.</p>
<p>9. Support appropriate efforts by water providers to incorporate drought conditions in their supply and demand forecasts in providing future and existing water supplies.</p>	<p>Added verbatim to the Long Range section, Water, Coordination, as Policy 8.</p>
