

## Use jMap to View Traffic Count Data

- Access [jMap](#)
- At the upper right-hand corner, click to open the **Layer List**
- Scroll down to **Traffic Count by Year**
- Click the small arrow to the left of **Traffic Count by Year** to open a drop-down menu.
- Click to place checkmarks in the boxes next to **Traffic Count by Year** and each traffic count year you want to view (e.g. TrafficCount\_2018, TrafficCount\_2017, TrafficCount\_2015, etc.).

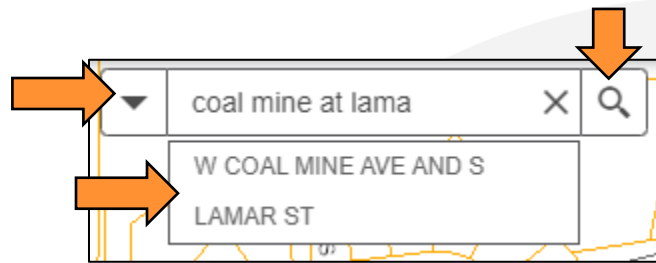

- At the upper left-hand side of the screen click the drop-down arrow next to the search box.

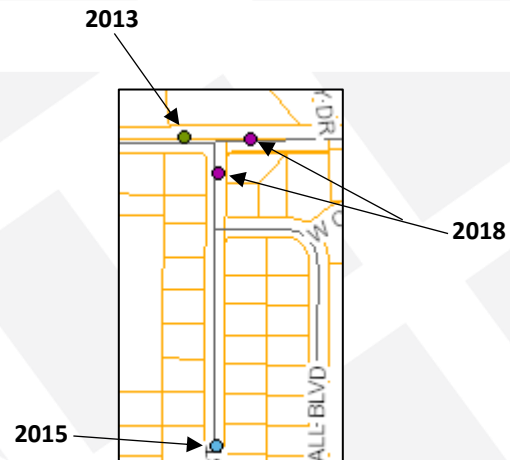

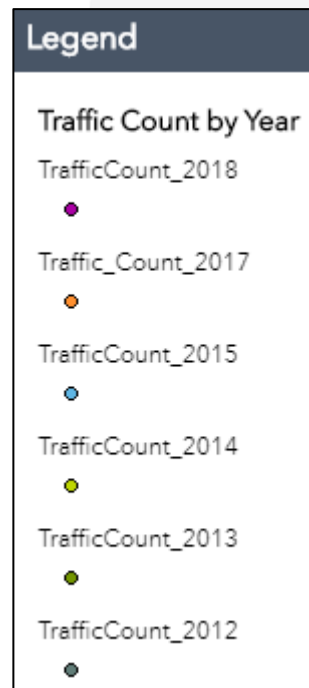

- Use the drop-down menu to select a search type (address, street intersection, etc.).

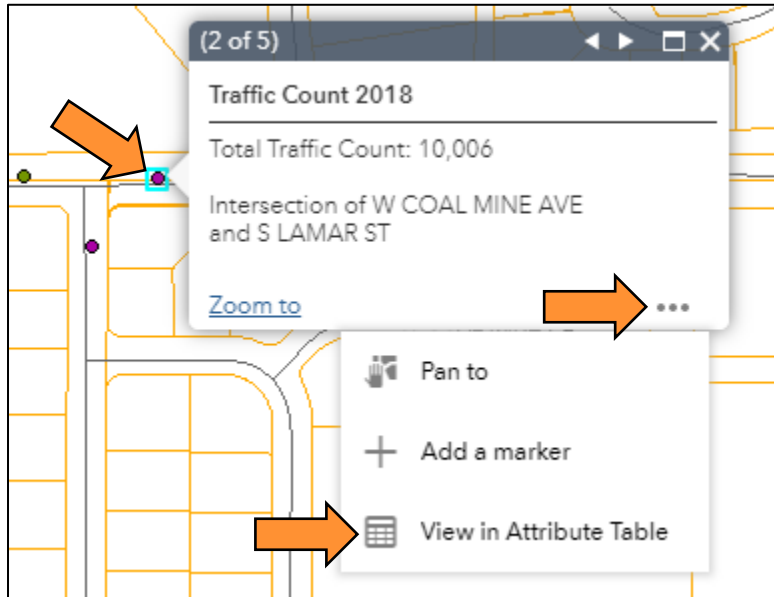

- Type the traffic count location in the search field.
- Click **Search**.
- Select the correct location from the drop-down menu that appears.

- Click the **Legend** button at the left side of the screen to see color coding for traffic count years.

- Left click one of the points on the map. A pop-up window will display the traffic count year, total traffic count and the location.
- For additional data, left click the three dots at the lower right-hand corner of the pop-up window.
- From the drop-down menu, left click **View in Attribute Table**.

A table with additional traffic count data will appear below the map.

| TCUID | RD_NAME         | LOCATION | INTERSECTION | CYCLE | EQUIPMENT | TYPE |
|-------|-----------------|----------|--------------|-------|-----------|------|
| 517   | W COAL MINE AVE | E        | S LAMAR ST   | 2     | VIDEO     | ADT  |
