

MAKE A COYOTE MASK

Coyotes are smart and savvy omnivores who aren't picky about what they eat. They hunt mice, rabbits and squirrels, but will also eat insects, birds, eggs, berries, and other foods. Coyotes are highly adaptable and even live in cities!

Pretend to be one of these clever animals by coloring and cutting out the mask. Punch holes on the sides, tie on string, then wear your mask. Can you pounce and howl like a coyote?

If you encounter a coyote at close distance, be **SMART**:

- **Stop.** Do not run or turn your back on the coyote.
- **Make yourself look big** by raising your arms.
- **Announce yourself.** Shout: "Leave me alone!"
- **Retreat.** Face the coyote and back away slowly.
- **Tell an adult** that a coyote is nearby.
