

**Jefferson County Sustainability Meeting**  
**Jeffco Residential PIE Team Check-In**  
**March 5, 2020**

1. Attendees

In-Person: Channing Evans, XCel Energy; Lynn Coppedge, Brendle Group; Shelby Sommer, Brendle Group; Jeff Wong, Jefferson County Sustainability Commission

2. Welcome

3. Introductions

4. [3/5/20 Action Items](#)

**Jeffco**

Jeff to contact Evergreen Alliance for Sustainability about staffing the kids station

Jeff to contact CSU extension about staffing a compost/gardening station

**Partners in Energy**

Lynn/Channing to check with CLEAResult to identify ways to track sign-ups after the event

Lynn to reach out to GF to coordinate event promotion, including inviting a resident to speak about their experience with Home Energy Squad

Lynn/Shelby to create flyer and Eventbrite page for Genesee event

Lynn to follow up with Partners in Energy data team for Jeffco data

Lynn to schedule Apr 27 call for this team

5. [3/5/20 Notes](#)

**Genesee Home Energy Festival**

Date Saturday, May 2, 1-3pm

Review [event plan](#) (attached)

Outcomes - tricky to measure; lots of word of mouth

Wondering if there is a way for CLEAResult to track participation in this neighborhood for us; or perhaps unincorporated Jeffco for the next several months after the event

Originally had some specific outcomes that we were trying to achieve; not sure how important this is - continue to brainstorm on it

Look and see if we have an email list for last event (Shelby to look for this)

Might be good for Partners in Energy or Genesee Foundation to email a few people to share their stories and distribute information on NextDoor

Confirm "staff"

Brendle Group: Lynn, Erica

Sustainability Commission: at least 3 people, maybe 1-2 more

Home Energy Squad Technician:

Channing to confirm that we'll have at least one person there

Denver Metro Clean Cities: Bonnie Trowbridge

Offered to bring Audi or BMW EV – what is the group's preference?

Good idea to have one; slight preference towards Audi

CSU extension:

Jeff reached out to her; she has been on maternity leave so waiting to hear back

Gardening/compost topic lead

Jabez offered to provide the Sustainability Commission materials to whomever is able to pick them up the Friday before

Table stations

Combine energy and water

Jeff can follow-up with Ginny to see if she's willing to attend again

Have pinwheels for a kids activity; can look into other options - team can continue to brainstorm ideas

Raffle prizes

Link to completed passports

BG to purchase some raffle prizes with MOU \$ - smart powerstrips or similar

Always helpful to send out an email within a week following the event

### **Other Potential Events**

Jeffco Employee Earth Day, April 22

3 sustainability commission members will be there

Will need updated flyers to promote Home Energy Squad; will be coordinating with Jabez

HOAs: Applewood, Ken Caryl, Columbine West, Columbine Knolls (no word from Gov Ranch)

April 28 - Jeff talking to Applewood board members about Sustainability Commission; will be talking to them about the bigger PiE event on Friday, August 21 (movie night) - expecting a few hundred people; ~5-8 pm

No success reaching Columbine Knolls, Applewood, etc.

Faith-based

### **Data Coordination**

Still waiting on results; Lynn will follow-up with data team

Jeff has a meeting with the team next Wednesday, would be ideal to have results for that

### **Wrap Up**

Next call: week of April 27 (in advance of Genesee Home Energy Festival)

Note that open meeting rules are something to be mindful about when we have multiple Sustainability Commission members participating
