

Section 16: Land Disturbance

(orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 10-12-04;
am. 4-20-10; am.11-20-12; am 6-1-19)

A. Purpose

The purpose of this section is to:

1. Protect the water quality of the County's drainageways and surface waters; (orig. 10-12-04; am. 12-6-22)
2. Protect life, property and the environment from loss, injury and damage by stormwater runoff, erosion, sediment transport, ponding, flooding, landslides, accelerated soil creep, settlement and subsidence, excessive dust, and other potential hazards caused by grading, construction activities, and denuded soils; (orig. 10-12-04)
3. Allow a temporary land use for land disturbance activities; and (orig. 8-25-86; am. 9-24-91; am. 3-23-99; am. 10-12-04)
4. Establish performance standards to:
 - a. Define grading, drainage, erosion and sediment control, and waste disposal requirements; (orig. 10-12-04)
 - b. Ensure mitigation of adverse impacts; and (orig. 10-12-04)
 - c. Ensure the reclamation of disturbed land. (orig. 10-12-04)

B. General Provisions

1. Performance Standards:

All Land Disturbance Activities must conform to the performance standards as detailed in this section. These standards apply whether or not a Land Disturbance Permit is required. (orig. 10-12-04; am. 12-6-22)

2. Activities Requiring a Land Disturbance Permit (Grading Permit or Notice of Intent):

It shall be unlawful for any person, firm or corporation to do or authorize any land disturbance in the unincorporated area of Jefferson County without first obtaining a Land Disturbance Permit from the County to authorize temporary land disturbance activities unless specifically exempted by this section. The applicant, the landowner, and the contractor are responsible if a land disturbance activity is not in accordance with the performance standards, or if a land disturbance activity is undertaken beyond the scope of the Land Disturbance Permit without County approval. Land disturbance activities must be completed in compliance with the approved plans. (orig. 8-25-86; am. 9-24-91; 8-8-95; am. 3-23-99; am. 12-17-02; am. 10-12-04; am. 12-6-22)

- a. Land Disturbance Activities will require a Grading Permit if one the following apply: (orig. 10-12-04; am. 12-6-22)
 - (1) The disturbed area is equal to or greater than 0.5 acres. (orig. 6-1-19; am. 12-6-22)
 - (2) 5,000 or more cubic yards of earthen material is stored on a property and the material is not actively being used on said property. An active use would be construction associated with an active building permit for a primary structure. (orig. 12-6-22)
- b. Land disturbance activities that require a Notice of Intent to be submitted with, or in advance of, a Building Permit application include the following: (orig. 10-12-04; am. 6-1-19; am. 12-6-22)
 - (1) Land disturbance in accordance with lot grading, erosion and sediment control plans approved with plats; (orig. 10-12-04; am. 11-24-15; am. 6-1-19) or
 - (2) Land disturbance associated with new start building permits for primary structures. (orig. 6-1-19)
 - (3) This Notice of Intent process shall only apply to land disturbance activities that meet the regulatory requirements, including all performance standards related to grading, drainage and circulation; otherwise, a Grading Permit is required. (orig. 6-1-19; am. 12-6-22)

3. Activities exempt from the Requirement for a Grading Permit

Land disturbance activities that are exempt from Grading Permit requirements shall comply with the

specific requirements, if any, listed in the applicable exemption provision below. In addition, land disturbance associated with activities listed within this exemption section must still be in compliance with the performance standards set forth in this section, unless specifically stated otherwise. The applicant, landowner and the contractor are responsible if land disturbance activity is not in accordance with these performance standards. The following land disturbance activities are permissible without obtaining a Grading Permit: (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 3-23-99; am. 10-12-04; am. 4-20-10; am. 6-1-19; am. 12-6-22)

- a. Projects which involve less than 0.5 acres of disturbed area. Individual lots in subdivision developments under the same ownership, involving less than 0.5 acres of disturbed area, shall not be considered separate projects if they are contiguous or within 0.25 mile of each other. Any series of related projects or connected projects on one site, which together exceed the 0.5 acre limitation shall be considered a single project and shall be required to obtain a Grading Permit. (orig. 9-24-91; am. 12-17-02; am. 10-12-04; am. 7-12-05; am. 11-24-15; am. 6-1-19)
- b. Land disturbance work being done pursuant to and in conformance with an approved grading plan in conjunction with an approved recorded Plat, Site Development Plan, Minor Adjustment or Exemption from Platting. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 4-27-04; am. 10-12-04)
- c. Tillage of agricultural land is exempt from all permit requirements. Agricultural uses of land zoned agricultural, other than tillage, which disturb greater than 0.5 acres is exempt from the filing requirements, provided a conservation plan for the proposed grading activities using the United States Department of Agriculture Soil Conservation Service standards is approved by the Jefferson Conservation District. A copy of the conservation plan shall be submitted to Planning and Zoning prior to the commencement of grading activities. The County may enforce the conditions of the conservation plan under the enforcement provisions of this section. (orig. 9-24-91; am. 8-8-95; am. 12-17-02; am. 4-27-04; am. 11-24-15; am. 6-1-19; am. 12-6-22)
- d. Trenching incidental to the construction, maintenance and installation of approved underground pipelines, electrical or communication facilities, and drilling or excavation for approved wells if the total area of land disturbance is less than one acre. Construction activities associated with the installation of the onsite wastewater treatment system (OWTS) shall not be exempt. Construction of access required to complete the trenching or for future maintenance shall not be exempt. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 10-12-04; am. 4-20-10; am. 11-20-12; am. 11-24-15; am. 12-6-22)
- e. Land disturbance for utility installation or maintenance within a County owned or County maintained Right-of-Way if the total area of land disturbance is less than one acre. These activities require a County Right-of-Way and Construction Permit. (orig. 8-8-95; am. 10-12-04; am. 11-20-12)
- f. Land disturbance or excavations in accordance with plans incorporated in a mining permit, reclamation plan or sanitary landfill approved by the County. (orig. 8-25-86; am. 9-24-91; am. 12-17-02; am. 10-12-04)
- g. County capital improvement or County maintenance projects within Right-of-Way or County property if the total area of land disturbance is less than one acre. (orig. 12-17-02; am. 10-12-04; am. 11-20-12; am. 12-6-22)
- h. Maintenance and cleaning of existing ditches, lakes, ponds, storm sewer system, and water storage reservoirs with a total area of land disturbance is less than one acre. (orig. 8-25-86; am. 10-12-04; am. 6-1-19)
- i. Land disturbance for culvert installation or maintenance within a County owned, public ROW or County maintained Right-of-Way if the total area of land disturbance is less than one acre and the culvert is intended to convey stormwater only. (orig. 6-1-19)
- j. Maintenance and resurfacing of existing streets/roads, runways, sidewalks/trail systems, parking lots/loading areas, and railroad beds. (orig. 9-24-91; am. 10-12-04)
- k. Performance of emergency work necessary to prevent or mitigate an immediate threat to life or property when an urgent necessity arises. The person performing such emergency work shall notify Planning and Zoning promptly of the problem and work required. If the emergency work would not otherwise be exempt from a Grading Permit, a Grading Permit shall be obtained as soon as possible. (orig. 8-25-86; am. 9-24-91, 8-8-95; am. 4-27-04; am. 10-12-04; am. 5-20-08)
- l. Enlargements to parking areas less than 0.5 acre larger than the original area of existing parking

facilities for commercial, industrial and institutional uses. Stormwater detention and water quality must be provided for in accordance with the Storm Drainage Design and Technical Criteria Manual. (orig. 4-27-04; am. 10-12-04; am. 11-24-15; am. 6-1-19)

- m. Land disturbance for natural surface trails that are less than one acre are exempt. Land disturbance over one acre associated with the construction of natural surface trails shall follow the procedure outlined below prior to commencement of any trail construction. The land disturbance associated with the construction of natural surface trails shall conform with the performance standards of this section and the current Jefferson County Natural Surface Trail Guide. (orig. 4-20-10; am.11-20-12; am. 11-24-15; am. 7-17-18)
 - (1) Plans are submitted showing the location and overall scope of the trail construction project, including a description of the proposed construction phasing. (orig. 4-20-10; am. 7-17-18)
 - (2) A detailed construction schedule is provided for each phase of the construction project. (orig. 4-20-10)
 - (3) The applicant proposes a construction guide that includes typical construction procedures that will be used during the construction of trails, including erosion and sediment control measures. (orig. 4-20-10)
 - (4) Planning and Zoning has reviewed the construction guide and has determined that the construction procedures will be sufficient to assure compliance with the grading performance standards of this section, and state or county erosion and sediment control standards. (orig. 4-20-10)
 - (5) The applicant shall stake the proposed trail alignment and shall coordinate a site visit with County Staff to review the alignment. If Staff identifies areas where trail alignment should be adjusted to assure conformance with the performance standards and the construction guide, then a new plan showing the new alignment shall be submitted. (orig. 4-20-10)
 - (6) The applicant agrees to implement the construction procedures identified within the guide and agrees that the county has the authority to inspect and require field alterations if the typical construction procedures identified in the guide are not being properly implemented. The applicant also agrees that failure to implement the construction standards of the guide or the field alterations directed by Planning and Zoning may result in the issuance of a zoning violation in accordance with this Resolution; and may result in the exemption from the grading permit requirements being revoked for future phases of the trail construction project. (orig. 4-20-10)
 - (7) The applicant submits the standard Grading Permit fee to cover the cost of the review and approval of the construction guide, and the inspection of each phase of the construction process. (orig. 4-20-10)

The procedures outlined in this section shall not apply to trail construction in special flood hazard areas that have been identified as a part of the Jefferson County Floodplain Overlay District. The appropriate floodplain development permit and grading permit will be required for construction activities occurring within special flood hazard areas. (orig. 4-20-10; am. 6-1-19)

- n. Any work within State or Federal lands including Rights-of-Way and/or permanent easements held by said agencies. This exemption does not relieve these entities from completing a floodplain development permit in accordance with the Floodplain Overlay District Section of this regulation. (orig. 7-17-18)
- o. Onsite disturbance through the Land Disturbance Permit may not be required for properties that are covered by a separate Municipal Separate Storm Sewer System (MS-4) permit through the State of Colorado, as determined by Planning & Zoning. (reloc. and am. 5-21-19)

4. Exemptions, Waivers, Variances and/or Exclusions

Any exclusions, exemptions, waivers, and variances included in the regulatory mechanism must comply with the terms and conditions of the MS4 Permit (COR090000). (orig. 6-1-19)

5. Denial of other Permits

Building Permits or Certificate of Occupancy shall not be issued while an unresolved grading, drainage or floodplain violation is ongoing on the subject property or within a common plan of development. (orig. 8-

25-86; am. 9-24-91, am. 8-8-95; am. 12-17-02; am. 7-17-18; am. 6-1-19; am. 12-6-22)

6. Permission of other Agencies or Owners

The issuance of a Grading Permit or the submission of a Notice of Intent shall not relieve the applicant of the responsibility for securing other permits or approvals required by any other division or agency of Jefferson County or other public agency or for obtaining any easements or authorization to work within an existing easement or for removing or transporting earth materials on property not owned by the applicant. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 4-27-04; am. 10-12-04; am. 12-6-22)

7. Construction and Permits

For construction within County Right-of-Way, the Grading Permit or Notice of Intent must be accompanied by an Access Permit and/or a Right-of-Way Use and Construction Permit in accordance with plans approved by the County. For construction outside of County Right-of-Way, the Grading Permit must be accompanied by a Construction Permit in accordance with the plans approved by the County. The applicant shall obtain applicable permits from the County prior to commencing field work. All other applicable requirements shall be followed including the Transportation Design and Construction Manual. (orig. 8-8-95; am. 12-17-02; am. 10-12-04; am. 11-24-15; am. 7-17-18; am. 12-6-22)

8. Liability

Neither the issuance of a Grading Permit nor the submission of a Notice of Intent under the provisions of this section nor compliance with the provisions hereof or with any conditions imposed in this section shall relieve the applicant from responsibility for damage to any person or property or impose any liability upon the County for damage to any person or property. (orig. 8-25-86; am. 12-17-02; am. 10-12-04)

9. Restricted Activities

- a. No blasting, processing, crushing, or off-site hauling or other similar treatment of a commercial mineral deposit may occur in the permit area. (orig. 9-24-91; am. 10-12-04)
- b. Any activity to construct any street/road to be dedicated to the County shall be undertaken pursuant to the Land Development Regulation and the Transportation Design and Construction Manual and in accordance with plans approved by the County. (orig. 9-24-91; am. 8-8-95; am. 3-23-99; am. 12-17-02; am. 10-12-04; am. 11-24-15)
- c. No Grading Permit shall be issued for any land disturbance activity which exceeds the minimal amount of grading necessary for the uses legally allowed at the time of permit application. Land disturbance activities for uses that require rezoning are unlawful. (orig. 8-8-95; am. 3-23-99; am. 10-12-04)
- d. When there is a grading plan approved in conjunction with a Plat, Site Development Plan, Minor Adjustment or an Exemption from Platting, it shall be unlawful to grade in a manner that is not consistent with the approved grading plan. (orig. 8-8-95; am. 3-23-99; am. 10-12-04; am. 7-17-18)
- e. Any construction or development activity in a drainage easement or tract must either be in compliance with the original approved drainage report or comply with the Storm Drainage Design and Technical Criteria. (orig. 10-12-04)

10. Grading Concurrent with Platting

- a. When a property is in a platting process, grading activities may commence prior to Plat approval by the Board of County Commissioners provided all of the following conditions are satisfied: (orig. 3-23-99; am. 10-12-04)
 - (1) The zoning is final and recorded. (orig. 3-23-99)
 - (2) The subdivision proposal has received approval by the Planning Commission or a recommendation of approval by the Planning Commission. (orig. 3-23-99; am. 10-12-04, am. 12-6-22)
 - (3) The grading and sediment and erosion control plans have received staff approval, either through the Final or Preliminary and Final Plat process. The grading plans shall not include permanent facilities such as curb, gutter, sidewalk, asphalt, etc. The installation of drainage facilities is allowed as approved by Planning and Zoning. (orig. 3-23-99; am. 10-12-04; am. 11-24-15)

- (4) The Final Plat application has been received and accepted as complete by staff or the Planning Commission has recommended approval of the Preliminary and Final Plat. (orig. 3-23-99; am. 10-12-04; am. 11-24-15)
 - (5) Grading within a Floodplain Overlay District may be permitted if a Floodplain Development Permit has been issued. (orig. 3-23-99; am. 12-17-02; am. 10-12-04; am. 11-24-15; am. 7-17-18)
 - (6) No waivers or alternative standards/requirements or variances related to grading requirements are being requested or are necessary in conjunction with the Final or Preliminary and Final Plat application. (orig. 3-23-99; am. 10-12-04; am. 11-24-15)
 - (7) The applicant has submitted a letter to the County indicating a request to commence land disturbance activities prior to Final or Preliminary and Final Plat approval and acknowledging that grading prior to Platting is done at their own risk, that grading changes may be required upon Final or Preliminary and Final Plat approval, and that the County shall not be held responsible for changes emanating from or costs associated with any changes that may be required as a result of Final or Preliminary and Final Plat approval. (orig. 3-23-99; am. 12-17-02; am. 10-12-04; am. 11-24-15)
 - (8) A Performance Guarantee has been accepted by the County in accordance with the Land Development Regulation. (orig. 10-12-04)
 - b. When grading activities are authorized prior to Plat approval by the Board of County Commissioners, the grading shall comply with the Land Development Regulation and with any previously approved grading plans. (orig. 3-23-99; am. 12-17-02; am. 10-12-04; am. 11-24-15)
 - c. Any land disturbance activity permitted pursuant to this section may be subject to additional requirements or alterations depending on approval conditions imposed by the Board of County Commissioners during the Plat review. (orig. 3-23-99; am. 10-12-04)
11. Grading Concurrent with the Processing of a Site Development Plan or Minor Adjustment
- a. When a property is in a Site Development Plan or Minor Adjustment process, grading activities may commence prior to approval by Planning and Zoning provided all of the following conditions are satisfied: (orig. 11-24-15; am. 7-17-18)
 - (1) The zoning is final and recorded. (orig. 11-24-15)
 - (2) The grading and sediment and erosion control plans have received staff approval. The grading plans shall not include permanent facilities such as curb, gutter, sidewalk, asphalt, etc. The installation of drainage facilities is allowed as approved by Planning and Zoning. (orig. 11-24-15)
 - (3) Grading within a floodplain overlay district may be permitted if a Floodplain Permit has been issued. (orig. 11-24-15; am. 7-17-18)
 - (4) No alternate standards/requirements or variances related to grading requirements are being requested or are necessary in conjunction with the Minor Adjustment or Site Development Plan application. (orig. 11-24-15)
 - (5) The applicant has submitted a letter to the County indicating a request to commence land disturbance activities prior to Minor Adjustment or Site Development Plan approval and acknowledging that grading prior to approval is done at their own risk, that grading changes may be required upon Minor Adjustment or Site Development Plan approval, and that the County shall not be held responsible for changes emanating from or costs associated with any changes that may be required as a result of Minor Adjustment or Site Development Plan approval. (orig. 11-24-15)
 - (6) A Performance Guarantee has been accepted by the County in accordance with the Land Development Regulation. (orig. 11-24-15)
 - b. When grading activities are authorized prior to Minor Adjustment or Site Development Plan approval by Planning and Zoning, the grading shall comply with the Land Development Regulation and with any previously approved grading plans. (orig. 11-24-15; am. 7-17-18)
 - c. Any land disturbance activity permitted pursuant to this section may be subject to additional requirements or alterations depending on approval conditions imposed by Planning and Zoning

during the Minor Adjustment or Site Development Plan review. (orig. 11-24-15; am. 7-17-18)

C. Submittal Requirements

The following submittal documents are required for Land Disturbance Permit Applications. (orig. 8-25-86; am. 7-17-18; am. 6-1-19)

1. An application form signed by the fee simple owner of the property or by the lessee, licensee or easement holder if the activity is to be undertaken pursuant to that interest. Grading Permit, Notice of Intent, and Natural Surface Trail application forms are available from Planning and Zoning. (orig. 10-12-04; am. 5-20-08; am. 6-1-19)
2. A cover letter describing the proposed activities. Not Required for Notice of Intent Applications. (orig. 10-12-04; am. 5-20-08; am. 6-1-19)
3. A nonrefundable application fee in an amount established by the Board of County Commissioners. (orig. 8-25-86; am. 9-24-91; am. 5-3-94)
4. A copy of the recorded deed for the parcel, tract or lot. (orig. 12-6-22)
5. Proof of Access in accordance with the Access Standards in the General Provisions and Regulations Section of this Zoning Resolution. (orig. 6-1-19)
6. A grading, erosion and sediment control plan in accordance with the Plans and Specifications of this Section. (orig. 8-25-86; am. 6-1-19)
7. A geologic and/or soils investigation report in accordance with the Plans and Specifications of this Section is required if there are any geological hazards including highly erodible soils or commercial mineral deposits within or immediately adjacent to the grading site or when the final cut or fill slopes are proposed to be steeper than 2H:1V or if infiltration is a component of the drainage system. (orig. 8-25-86; am. 9-24-91, 8-8-95; am. 12-17-02; am. 10-12-04; am. 6-1-19; am. 12-6-22)
8. A drainage report or drainage letter in conformance with the requirements of the Storm Drainage Design and Technical Criteria. (orig. 10-12-04; am. 11-24-15; am. 6-1-19; am. 12-17-19)
9. Construction plans, details and supporting calculations for retaining walls, if applicable, in accordance with the Performance Standards of this Section. For Notice of Intent Applications, the applicant will need to apply for a separate miscellaneous permit for retaining walls greater than 36 inches high. (orig. 10-12-04; am. 6-1-19)
10. Drainage Easements may be required to be dedicated to the County for all permanent control measures. The applicant shall provide a legal description and exhibit (signed and stamped by a Professional Land Surveyor) when applicable. Not Required for Notice of Intent Applications. (orig. 12-17-19)
11. A cost and/or quantity estimate (Exhibit A) in accordance with the Improvement Security requirements of this Section, for all the work associated with the project. Reference the example Exhibit A on the Planning and Zoning website. Not Required for Notice of Intent Applications. (orig. 10-12-04; am. 7-12-05; am. 7-17-18; am. 6-1-19; am. 12-17-19; am. 12-6-22)

Note: An improvements security may be required in accordance with the Security requirements of this Section. The typical improvement security will be a letter of credit or cash escrow. If required the improvement security will need to be submitted prior to approval of the Land Disturbance application. (orig. 10-12-04; am. 7-17-18; am. 6-1-19; 12-17-19)

12. A completed N-1 Form stating that the proposed construction and grading are in conformance with the Land Disturbance requirements of this Section and, if applicable, the approved overall grading plan for the subdivision. Only Required for Notice of Intent Applications. (orig. 6-1-19)

Note: A completed N-2 Form is required prior to issuance of a Certificate of Occupancy. (orig. 6-1-19)

D. Procedures

1. Notice of Intent Procedures: A Notice of Intent (NOI) shall be submitted with, or in advance of, a building permit application for a primary structure that depicts the phased grading, erosion and sediment control measures for that lot/parcel. The NOI shall certify that the Plans are in conformance with the Jefferson County Zoning Resolution (ZR), the Land Development Regulation (LDR), the Storm Drainage Design and Technical Criteria (SDDTC), and The Transportation Design and Construction Manual (TDCM). Any requests for relief of these standards shall require the submittal of a Grading Permit. If applicable, the NOI shall state that the project will be in conformance with the approved construction documents with that

subdivision. A completed Form Letter N-1 stating that the proposed construction and grading are in conformance with the approved overall grading plan and Land Disturbance Performance Standards shall be submitted to Planning & Zoning prior to issuance of the Building Permit. Form Letter N-1 shall be completed by a Colorado registered professional engineer. (orig. 6-1-19; am. 12-6-22)

Process Steps	Processing Time Frames	
Process from Plan Submittal to Acceptance of NOI		
Plan Submittal Intake	7 calendar days (Staff confirms the land disturbance permit qualifies as an NOI and required submittal items have been received)	Example timeframe: 19 Days to acceptance of NOI if processing time frames are met. May take longer if issues arise.
Applicant Action is Required	Varies, 5 calendar days used for example timeframe	
Plan Resubmittal and NOI Acceptance	7 calendar days (Staff confirms required submittal items have been received)	
Final Close Out		
Permit Monitoring until submittal of N-2	2 years maximum	

Plan Submittal Intake

a. Sufficiency Review:

The applicant shall electronically submit all the applicable documents identified in the Submittal Requirements of this Section as a complete package, and not in a fragmentary manner for review by the Case Manager. (orig. 12-6-22)

The Case Manager shall have 7 calendar days to review the submittal and either accept the application or respond to the applicant explaining any deficiencies in the submittal documents (including the appropriate application fees). A submittal that is not complete in terms of the type of documents required will not be accepted. (orig. 12-6-22)

Resubmittal Sufficiency Review (if required): The Case Manager shall have 7 calendar days to review the resubmittal and either accept the application or respond to the applicant explaining any deficiencies in the submittal documents. (orig. 12-6-22)

Plan Resubmittal and NOI Acceptance:

b. The final documents shall be comprised of the Submittal Requirements of this Section. (orig. 12-6-22)

The applicant shall have a maximum of 180 calendar days to respond to the comments from the case manager, or the application will be considered withdrawn. The applicant will then have to file a new application with the required fees and documents. The Director of Planning and Zoning may extend this 180-calendar day maximum response deadline for additional 180 calendar day periods if, in his/her opinion, the delay in response is for good cause. (orig. 12-6-22)

c. The Case Manager shall have 7 calendar days to review the resubmitted documents and shall accept the application if it is complete in form and has all the required information described in the Notice of Intent N-1 Form that provides certification from a Colorado registered professional engineer stating that the submitted plans are in conformance with the Jefferson County Zoning Resolution (ZR), the Land Development Regulation (LDR), the Storm Drainage Design and Technical Criteria (SDDTC), the Transportation Design and Construction Manual (TDCM), and the notes, restrictions and supporting documents of any associated approved Preliminary and Final Plat. The owner, contractor or engineer shall also certify that the specified control measures will be installed prior to land disturbance and that control measures will be adequately maintained throughout the process and shall sign the N-1 Form. (orig. 12-6-22)

Permit Monitoring:

d. Once the work associated with the accepted Notice of Intent is complete, the applicant shall submit a completed N-2 Form which provides certification from a Colorado registered professional engineer stating that all grading work was completed in conformance with the final accepted Grading, Erosion

and Sediment Control (GESG) Plan, Drainage Report and N-1 submitted with the project application. If amendments to the accepted plans were made resulting in grading activities that were not completed in conformance with the final accepted plans, then the N-2 Form shall be submitted in conformance with the Amendments procedure of this Section. (orig. 12-6-22)

Permit Limitations:

- e. The permit shall be limited to work shown on the approved plans. Such plans shall contain guidelines, conditions, and/or restrictions as are necessary to comply with the performance standards. At any time during the plan review or in the event unforeseen conditions arise during completion of the project, the County may require revision of the plans as necessary to ensure compliance with the performance standards. (orig. 12-6-22)

Amendments:

- f. Modifications to the final accepted plans requires submittal of the revised plans and the completed N-2 Form which provides certification from a Colorado registered professional engineer stating that deviations from the accepted plans have occurred and that the revised plans and work has been completed in conformance with the Jefferson County Zoning Resolution (ZR), the Land Development Regulation (LDR), the Storm Drainage Design and Technical Criteria (SDDTC), the Transportation Design and Construction Manual (TDCM), and the notes, restrictions and supporting documents of any associated approved Preliminary and Final Plat. If the appropriate certification cannot be provided and the modifications to the plans do not conform to the Jefferson County Standards and Regulations for land disturbance permits described in this section, revised plans shall be submitted and reviewed by Planning & Zoning through a Grading Permit Application where requests for relief from standards will be evaluated. (orig. 12-6-22)

Validity:

- g. The acceptance of plans and specifications by the County shall not be construed as an approval of any violation of the provisions of this section or of any other applicable laws, rules or regulations and shall not prevent the County from thereafter requiring the correction of errors in said plans and specifications or from preventing work being carried on thereunder in violation of this section or any other applicable law, rule or regulation. The issuance of a Land Disturbance Permit prior to any Plat approval shall in no way bind the Planning Commission or the Board of County Commissioners in the approval or denial of a Plat application, and the applicant's grading activities are at the applicant's risk. (orig. 12-6-22)

Time Limits:

- h. The work associated with the permit shall be completed within 2 years of the date of acceptance unless an extension has been granted by Planning and Zoning. A request for an extension shall be submitted in writing no later than 10 calendar days prior to the expiration of the permit. Planning and Zoning may grant an extension to the permit up to 1 year. Additional extensions may be granted by Planning and Zoning to allow the establishment of permanent erosion and sediment control measures. (orig. 12-6-22)
2. Grading Permit Procedures: If the applicant complies with all given time frames, submits a complete Grading Permit application and complies with all requirements of this regulation, the estimated time to reach the Determination Phase of the process is 66 calendar days from the date of the 1st referral, depending on the amount of disturbance for the proposed grading activity. (orig. 5-20-08; am. 7-17-18; am. 6-1-19; am. 12-6-22)

Process Steps	Processing Time Frames	
Steps prior to 1st Referral		
Sufficiency Review and Referral Distribution or Deficiency Response	7 calendar days	
Resubmittal Sufficiency Review (if necessary)	7 calendar days	
Process from 1st Referral to Determination		
1 st Referral and Staff Response	21 calendar days (14 day referral, 7 days for Staff response)	Example timeframe: 66 Days to determination if processing time frames are met. May take longer if issues arise.
Applicant's Response to 1 st Referral	Varies, 14 calendar days used for example timeframe	

Sufficiency Review and Referral Distribution	7 calendar days	
2 nd Referral and Staff Response	14 calendar days (7 day referral, 7 days for Staff response)	
Submittal of Final Documents by applicant	Varies - 10 calendar days used for example timeframe	
Determination		
Determination	7 days	

If an applicant is going to request relief from a standard in the Regulations, then a request for relief of the standard may be submitted for consideration. In order to avoid processing delays, it is recommended that a request for relief from a standard be submitted early in the development process. Requests for relief of a standard are subject to different specific processing timeframes, which may add to the length to the processing of the development application. (orig. 5-20-08; am. 7-17-18; am. 6-1-19)

Notification is required at the time of the 1st Referral in accordance with the notification provisions of this section. (orig. 6-1-19)

Proof of Access: The Director of Planning and Zoning may allow the 1st Referral to be sent without meeting the access criteria proof of access requirements, if in his/her opinion the circumstances related to proving access should be finalized during the processing of the application. (orig. 4-20-10; am. 12-21-10; am. 6-1-19)

Steps Prior to 1st Referral

a. Sufficiency Review and Referral Distribution (1st Referral):

The applicant shall electronically submit all the applicable documents identified in the Submittal Requirements of this Section as a complete package, and not in a fragmentary manner for review by the Case Manager.

The Case Manager shall have 7 calendar days to review the submittal and either send the application out on referral or respond to the applicant explaining any deficiencies in the submittal documents (including the appropriate referral fees). A submittal that is not complete in terms of the type of documents required will not be sent out on referral. (orig. 7-17-18; am. 12-6-22)

Resubmittal Sufficiency Review (if required): The Case Manager shall have 7 calendar days to review the resubmittal and either send the application out on referral or respond to the applicant explaining any deficiencies in the submittal documents. (orig. 7-17-18; am. 12-6-22)

Process from 1st Referral to Determination

b. 1st Referral and Staff Response:

The referral agencies shall have 14 calendar days to respond in writing to the application. An extension of no more than 30 calendar days may be agreed to by the applicant. (orig. 5-20-08; am. 7-17-18; am. 6-1-19)

The Case Manager shall have 7 calendar days, after the end of the referral period, to provide the applicant with a Staff response inclusive of other referral responses. The response from the Case Manager will include an opinion as to whether the case should proceed forward to the Final Documents phase or if revised documents should be submitted for a subsequent referral process. (orig. 5-20-08; am. 7-17-18)

c. Applicant's Response to 1st Referral:

For the application to be processed in accordance with the example timeframe in the table above, the applicant shall have 14 Calendar days to address in writing any issues identified by the Case Manager or any referral agency and resubmit revised documents for the 2nd referral. (orig. 5-20-08; am. 7-17-18)

Regardless of the example timeframe, the applicant shall have a maximum of 180 calendar days to respond to the referral comments or the application will be considered withdrawn. The applicant will then have to file a new application with the required fees and documents. The Director of Planning and Zoning may extend this 180 calendar day maximum response deadline for additional 180 calendar day periods if, in his/her opinion, the delay in response is for good cause. (orig. 5-20-08; am. 12-21-10; am. 7-17-18)

- d. Sufficiency Review and Referral Distribution (2nd Referral):
The Case Manager shall have 7 calendar days to review the submittal and either send the application out on referral or respond to the applicant explaining any deficiencies in the submittal documents. A submittal that is not complete in terms of the type of documents required package will not be sent out on referral. All resubmittal documents shall be submitted as a complete package, and not sent in a fragmentary manner. (orig. 7-17-18; am. 12-6-22)
Resubmittal Sufficiency Review (if required): The Case Manager shall have 5 calendar days to review the resubmittal and either send the application out on referral or respond to the applicant explaining any deficiencies in the submittal documents. (orig. 7-17-18)
- e. 2nd Referral and Staff Response:
The referral agencies shall have 7 calendar days to respond in writing to the 2nd referral. An extension of no more than 30 calendar days may be agreed to by the applicant. (orig. 5-20-08; am. 7-17-18)
The Case Manager shall have 7 calendar days after the end of the referral period to provide the applicant with a Staff response inclusive of referral agency responses. The response from the Case Manager will include an opinion as to whether the case should proceed forward to the Final Documents phase or if revised documents should be submitted for a subsequent referral process. (orig. 7-17-18)
- f. Applicant's Response to 2nd Referral Comments:
The applicant shall have a maximum of 180 calendar days to respond to the referral comments, or the application will be considered withdrawn. The applicant will then have to file a new application with the required fees and documents. The Director of Planning and Zoning may extend this 180 calendar day maximum response deadline for additional 180 calendar day periods if, in his/her opinion, the delay in response is for good cause. (orig. 5-20-08; am. 12-21-10; am. 7-17-18)
- g. Additional Referrals and Responses:
For the 3rd Referral, and for any subsequent referrals thereafter, the processing of the application shall follow the same steps identified above in the Sufficiency Review and Referral Distribution (2nd Referral) process, the 2nd Referral and Staff Response process and the Applicant's Response to 2nd Referral process. (orig. 5-20-08; am. 7-17-18)
- h. Final Documents:
The final documents shall be comprised of the stamped and signed grading plans and other final documents as identified by the Case Manager. In addition to submitting the final documents electronically, the applicant shall submit hard copies of the plans as specified in the case managers response to the last referral. (orig. 5-20-08; am. 6-1-19)
The applicant shall have a maximum of 180 calendar days to respond to the comments from the case manager, or the application will be considered withdrawn. The applicant will then have to file a new application with the required fees and documents. The Director of Planning and Zoning may extend this 180-calendar day maximum response deadline for additional 180 calendar day periods if, in his/her opinion, the delay in response is for good cause.
- i. Determination:
The Case Manager shall have 7 calendar days to review the Final Documents and shall approve, conditionally approve or deny the application. An application shall be approved if it is complete in form, has all required information, includes appropriate control measure for all stages of construction, including final stabilization, the control measures meet the requirements of the MS4 Permit and the provisions of this section. Otherwise, it shall be denied. Any approval or denial shall be in writing with the reasons for denial specifically identified. Annotations on the plans shall be considered sufficient detail of the reasons for denial. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 4-27-04; am. 10-12-04; am. 6-1-19).
- j. Request for Reconsideration:
If an application is denied or conditionally approved, the applicant may request in writing, within 21 calendar days after the decision, a reconsideration of the decision by Planning and Zoning. The request for reconsideration shall state specific reasons or changes for the reconsideration. Planning and Zoning shall act upon the request for reconsideration within 10 working days of its receipt. Failure

to act shall constitute denial of the request for reconsideration. No appeal to the Board of Adjustment shall be permitted unless a request for reconsideration was previously filed and denied. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 4-27-04; am. 5-20-08)

k. Appeals:

If Planning and Zoning denies the request for reconsideration, the applicant may submit a written appeal to the Board of Adjustment. The appeal must be received by the secretary of the Board of Adjustment within 30 calendar days of the date of denial. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 4-27-04; am. 10-12-04; am. 12-14-04; am. 5-20-08)

l. Permit Limitations:

The permit shall be limited to work shown on the approved plans. Such plans shall contain guidelines, conditions, and/or restrictions as are necessary to comply with the performance standards. At any time during the plan review or in the event unforeseen conditions arise during completion of the project, the County may require revision of the plans as necessary to ensure compliance with the performance standards. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 3-23-99; am. 12-17-02; am. 10-12-04; am. 5-20-08)

m. Amendments:

Modifications to the approved plans are subject to an Administrative Review process. Modifications shall comply with the Plans and Specifications requirements and the performance standards as outlined in this Section, unless relief is granted through the appropriate process. (orig. 8-25-86; am. 3-23-99; am. 10-12-04; am. 7-17-18; am. 6-1-19)

n. Validity:

The approval of plans and specifications shall not be construed as an approval of any violation of the provisions of this section or of any other applicable laws, rules or regulations and shall not prevent the County from thereafter requiring the correction of errors in said plans and specifications or from preventing work being carried on thereunder in violation of this section or any other applicable law, rule or regulation. The issuance of a Grading Permit prior to any Plat approval shall in no way bind the Planning Commission or the Board of County Commissioners in the approval or denial of a Plat application, and the applicant's grading activities are at the applicant's risk. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 10-12-04)

2. Grading Permit Inspections

- a. Upon approval by Planning and Zoning, the approved plans will be referred to an Engineering Inspector for permit issuance. (orig. 10-12-04; am. 5-20-08; am. 4-20-10; am. 7-17-18)
- b. The County may inspect the site and perform any necessary tests from time to time to ensure compliance with the permit conditions. (orig. 7-17-18).
- c. Final inspections shall confirm that the completed structural and/or non-structural water quality control measure operates in accordance with the approved plans. (orig. 6-1-19)
- d. All applicable development sites must have operational permanent water quality control measures at the completion of the site. In the case where permanent water quality control measures are part of future phasing, the permittee must have a mechanism to ensure that all control measures will be implemented, regardless of completion of future phases or site ownership. In such cases, temporary water quality control measures must be implemented as feasible and maintained until removed or modified. All temporary water quality control measure must meet one of the design standards in the MS4 Permit. For the purpose of this section, completion of a site or phase shall be determined by the issuance of a certificate of occupancy, use of the completed site area according to the site plan, payment marking the completion of a site control measure, the nature of the selected control measure or equivalent determination of completion as appropriate to the nature of the site. (orig. 6-1-19)
- e. Time Limits: The work associated with the permit shall be completed within 2 years of the date of permit issuance, unless an extension has been granted by Transportation and Engineering. A request for an extension shall be submitted in writing no later than 10 calendar days prior to the expiration of the permit. Transportation and Engineering may grant an extension to the permit up to 1 year. Additional extensions may be granted by Transportation and Engineering to allow the establishment of permanent erosion and sediment control measures. (orig. 8-25-86; am. 9-24-91;

am. 8-8-94; am. 3-23-99; am. 12-17-02; am. 10-12-04; am. 5-20-08; am. 10-13-09; am. 7-17-18)

E. Plans and Specifications

1. Grading, Erosion and Sediment Control Plan

The proposed grading, erosion and sediment control plan and specifications shall demonstrate compliance with the performance standards and shall be prepared on sheets 24 inches by 36 inches, or as otherwise approved by Planning and Zoning, and stamped and signed by a Colorado registered professional engineer. (orig. 8-25-86; am. 9-24-91; am. 10-12-04; am. 7-17-18; am. 6-1-19)

For graded areas between 0.5 and one acre, the County may waive the requirement for a topographic map and the requirement that the grading plans be prepared, stamped and signed by a Colorado registered professional engineer, where the applicant demonstrates an engineered grading plan and/or topographic map is not necessary to comply with the performance standards set forth herein. (orig. 9-24-91; am. 8-8-95; am. 12-17-02; am. 10-12-04; am. 7-17-18; am. 6-1-19)

The grading, erosion and sediment control plan shall include the following unless waived or exempted by Planning and Zoning herein. (orig. 8-25-86; am. 9-24-91; am. 10-12-04; am. 7-17-18; am. 6-1-19)

- a. A map which shows the items listed below. Acceptable map scales are 1 inch to 10, 20, 30, 40, 50, 60 or 100 feet. (orig. 8-25-86; am. 9-24-91; am. 10-12-04)
 - (1) A vicinity map (not to scale) indicating the location of the site relative to the principal roads, lakes or dams, and watercourses in the area. (orig. 8-25-86; am. 9-24-91)
 - (2) A title block which includes the title of the Grading Plan, purpose and nature of the grading project and, if applicable, states the use of earth material to be removed from the site. The name of the engineer who prepared the plans should also be included in the title block. (orig. 8-25-86; am. 9-24-91)
 - (3) The complete site boundary and locations of any easements and Rights-of-Way traversing and adjacent to the property, appropriately labeled and dimensioned. (orig. 8-25-86)
 - (4) The location of existing roads, buildings, wells, pipelines, watercourses and other structures, facilities and features of the sites, and the location of all improvements on adjacent land within 50 feet of the site's boundary. (orig. 8-25-86)
 - (5) The location and nature of known or suspected highly erodible soils or geologic hazard areas. (orig. 8-25-86; am. 9-24-91)
 - (6) A topographic map which shows the affected area. The map shall show affected areas outside the permit boundaries, such as drainages. Contour lines shall be at 5-foot intervals or at an interval of greater detail if necessary to accurately show topographic features and drainage patterns, and the configuration of the ground before and after grading. The existing and final contours shall be shown at 2-foot intervals for subdivisions within the plains area and contours at 5-foot intervals for subdivisions within the mountain areas including the method utilized to obtain all contour intervals. Contours shall be accurate to within one-half (1/2) contour interval and elevations shall be based on United States Geologic Survey (USGS) sea level datum. Except for access permits, USGS quad maps shall not be accepted as evidence for topographic contours. (orig. 8-25-86; am. 9-24-91; am. 3-23-99; am. 10-12-04; reloc. 12-6-22)
 - (7) The location, extent and finished surface slopes of all final cut and fill lines. (orig. 8-25-86)
 - (8) The 100-year flood plain boundaries. (orig. 8-25-86)
 - (9) The location of any existing or proposed flood control facilities, wells or Onsite Wastewater Treatment System in the vicinity of the permit area. Temporary access to the well and Onsite Wastewater Treatment System shall be depicted. (orig. 8-25-86; am. 9-24-91; am. 7-17-18; am. 6-1-19)
 - (10) The location where any earth materials and topsoil will be stockpiled. Include estimated stockpile volume. If the stockpile will reach into adjacent properties, approval from the property owner shall be required. (orig. 8-25-86; am. 9-24-91; am. 7-17-18)
 - (11) The north arrow, the scale, and the date. (orig. 8-25-86)
 - (12) The general location and character of vegetative cover on the site and the location of all major rock outcrops. (orig. 8-25-86; am. 9-24-91)

- b. Typical cross sections (not less than two) of all existing and proposed graded areas taken at intervals not exceeding 200 feet and at locations of maximum cuts and fills where such cuts and/or fills exceed 10 feet in height. (orig. 8-25-86; am. 9-24-91)
- c. A table of the volume of cut, volume of fill, volume of material to be exported offsite, the steepest proposed slopes, the total area of land disturbance, the existing impervious area, the proposed impervious area (total impervious area for the site) and the area of land disturbance treated by a water quality control measure per the SDDTC. An example of this table is shown below and the table shall be placed on page 1 of the plan set. (orig. 8-25-86; am. 9-24-91; am. 6-1-19; am. 12-6-22)

Total Area of Land Disturbance	acres
Volume of Cut	cy
Volume of Fill	cy
Volume of Material to be Exported Offsite	cy
Existing Impervious Area	acres
Proposed Impervious Area	acres
Area of Land Disturbance Treated by a Permanent Water Quality Control Measure	acres
Steepest Proposed Slope	H:V

- d. The projected schedule of operations, including the following dates. The schedule dates must correspond to the permitted construction timeframe following approval: (orig. 8-25-86; am. 12-6-22)
 - (1) Commencement of work, including days and hours of operation. (orig. 8-25-86; am. 9-24-91)
 - (2) Start and finish of rough grading. (orig. 8-25-86)
 - (3) Completion of work in any watercourse. (orig. 8-25-86)
 - (4) Completion of grading, erosion and sediment control measures (Best Management Practices, BMP's). (orig. 8-25-86; am. 10-12-04; am. 6-1-19; am. 12-6-22)
 - (5) Maintenance schedule for grading, erosion and sediment control BMP's. (orig. 9-24-91; am. 10-12-04; am. 6-1-19)
 - (6) Completion of any required landscaping. (orig. 8-25-86)
- e. The proposed grading, erosion and sediment control plan shall include permanent and, if applicable, temporary erosion and sediment control BMP's. The plans shall identify all structural and non-structural control measures for the applicable construction activities. The plan must contain installation and implementation specifications or a reference to the document with installation and implementation specifications for all structural control measures. A narrative description of non-structural control measures must be included in the plan. Revegetation plans shall include the seed mixture(s) including species and variety, type of seedbed preparation and method of seeding, seeding rates, seeding dates, type and application rates of fertilizer and mulch, and irrigation facilities and methods if applicable. Seed mix shall be based on the Jefferson Conservation District recommendations and/or a Planning and Zoning approved alternative. Seeding alone is not erosion control until vegetation is established. Seeding shall be combined with applicable erosion control structural BMP's until vegetation is established. (orig. 9-24-91; am. 10-12-04; am. 7-12-05; am. 7-17-18; am. 6-1-19)
- f. At a minimum, initial and final construction phases are required for all grading, erosion and sediment control plans. (orig. 7-17-18)
- g. Clearly and legibly show BMPs on the plan and include standard notes and associated details for the BMPs shown on said plan. (orig. 7-17-18; am. 6-1-19)

- h. If a Grading Permit Application requires an Improvement Security, a detailed improvements list is required. If the Grading Permit Application does not require an Improvement Security, the quantity of each erosion and sediment control BMP shall be provided. (orig. 6-1-19; am. 12-17-19; am. 12-6-22)

2. Soil/Geologic Investigation Report

If a soils and/or geologic investigation report is required by the County, it shall be prepared and signed by a qualified professional geologist or Colorado registered professional engineer. The report shall contain all the following as they may be applicable to the subject site: (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 10-12-04)

- a. A site map showing the topographic features of the site and locations of all soil borings and test excavations. (orig. 8-25-86)
- b. A classification of the soil types, laboratory test data, and consequent evaluation regarding the distribution and nature of existing soils. (orig. 8-25-86; am. 9-24-91)
- c. A description of the geology of the site and adjacent areas when pertinent to the site. (orig. 8-25-86)
- d. A suitably scaled map and cross sections showing all identified areas of historic or potential instability within and adjacent to the permit area. An evaluation of the stability of natural slopes and any proposed cut and fill slopes. (orig. 8-25-86; am. 9-24-91)
- e. A description of known or inferred groundwater or excessive moisture conditions. (orig. 8-25-86; am. 9-24-91)
- f. A description of the soil and geologic investigative techniques employed. (orig. 8-25-86)
- g. A log for each soil boring and test excavation showing elevation at ground level and the depth of each soil or rock strata. (orig. 8-25-86)
- h. Recommendations for grading procedures and specifications, including methods for excavation and subsequent placement of fill. (orig. 8-25-86)
- i. Recommendations for mitigation of geologic hazards and constraints. (orig. 8-25-86; am. 12-6-22)
- j. The time of year the field work was done and a list of references and other supportive data. (orig. 8-25-86)
- k. Soil parameters to be used in the design of retaining walls. (orig. 9-24-91; am. 12-6-22)
- l. Infiltration testing shall be completed for each control measure that utilizes infiltration. At least two tests per control measure are required. The testing shall be at an appropriate elevation and location to adequately evaluate the underlying strata. A Factor of Safety of 2 shall be applied to the final infiltration rate to account for infiltration degradation over time (orig. 12-6-22)

3. Materials Handling Plan

The proposed materials handling plan shall include BMP's for controlling waste and spill prevention and containment. (orig. 10-12-04)

F. Performance Standards for All Land Disturbance Activities

- 1. Control measures must prevent pollution or degradation of state waters. Control measures must also be appropriate for the specific construction activity, the applicable pollutant sources, and phase of construction. Appropriate control measures must be implemented prior to the start of construction activity, must control potential pollutants during each phase of construction, and must be continued through final stabilization. Appropriate structural control measures must be maintained in operational condition. (orig. 6-1-19)
- 2. Control measures must be selected, designed, installed, implemented, and maintained to provide control of all potential pollutants, such as but not limited to sediment, construction site waste, trash, discarded building materials, concrete truck washout, chemicals, sanitary waste, and contaminated soils in discharges to the MS4 and/or waterways. At a minimum pollutant sources associated with the following activities (if part of the applicable construction activity) must be addressed: (orig. 6-1-19; am. 12-6-22)
 - a. Land disturbance and storage of soils. (orig. 6-1-19)

- b. Vehicle tracking. (orig. 6-1-19)
 - c. Loading and unloading operations. (orig. 6-1-19)
 - d. Outdoor storage of construction site materials, building materials, fertilizers, and chemicals
 - e. Bulk storage of materials. (orig. 6-1-19)
 - f. Vehicle and equipment maintenance and fueling. (orig. 6-1-19)
 - g. Significant dust or particulate generating processes. (orig. 6-1-19)
 - h. Routine maintenance activities involving fertilizers, pesticides, detergents, fuels, solvents, and oils. (orig. 6-1-19)
 - i. Concrete truck/equipment washing, including the concrete truck chute and associated fixtures and equipment. (orig. 6-1-19)
 - j. Dedicated asphalt and concrete batch plants. (orig. 6-1-19)
 - k. Other areas or operations where spills can occur. (orig. 6-1-19)
 - l. Other non-stormwater discharges including construction dewatering not covered under the Construction Dewatering Discharges general permit and wash water that may contribute pollutants to the MS4 and/or waterways. (orig. 6-1-19)
3. No Impedance to Natural Water Flow
- a. No work shall be done which may obstruct, impede or interfere with the flow of storm water in overland flows, natural drainageways, unimproved channels or watercourses, or improved ditches, channels or canals in such a manner as to cause flooding that adversely impacts adjacent and downstream properties. Any activity taking place in an area zoned Floodplain Overlay District shall meet the requirements of the Floodplain Overlay District section of this Zoning Resolution. (orig. 8-25-86; am. 9-24-91; am. 12-17-02; am. 7-17-18)
 - b. Construction equipment shall be kept out of watercourses except when necessary to perform work on the approved plans. Where in-channel work is designated on approved plans, precautions shall be taken to stabilize the work area during construction to minimize erosion. The channel, including bed and banks, shall be stabilized immediately after in-channel work is completed. (orig. 9-24-91; am. 6-1-19)
 - c. Where a drainageway will be crossed by construction vehicles regularly during construction, a temporary crossing shall be provided. A permit may be required from the U.S. Army Corps of Engineers and the Environmental Protection Agency prior to any disturbance in waters of the United States or federally regulated wetlands. (orig. 9-24-91; am. 12-17-02; am. 10-12-04)
4. Excavation
- Excavations shall be constructed and/or protected so that they are stable and do not endanger life or property. (orig. 8-25-86; am. 9-24-91)
5. Excavation Slope
- a. The slope of cut surfaces of permanent excavations shall not be steeper than 2 horizontal to 1 vertical (approximately 25 degrees). Steeper slopes may be permitted for grading permits with the approval of the County, provided it can be adequately demonstrated in a soils/geologic report that such slopes are stable and will not undergo accelerated erosion. The County may require the excavation to be made with a cut face flatter in slope than 2 horizontal to 1 vertical (2H:1V) if soils/geologic information submitted shows that flatter slopes are necessary for stability, adequate revegetation or maintenance. Cut slopes shall be rounded into the existing terrain to produce a contoured transition from cut face to natural ground. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 6-1-19)
 - b. The slope of cut surfaces which are 5 feet in height or less and are in competent bedrock may be steeper than 2H:1V, but shall be no steeper than 1 1/2H:1V. Steeper slopes may be permitted for grading permits with the approval of the County, provided it can be adequately demonstrated in a soils/geologic report that such slopes are stable and will not undergo accelerated erosion. (orig. 9-24-91; am. 8-8-95; am. 12-17-02; am. 6-1-19)
6. Fill Placement
- Completed fills shall be stable masses of well-integrated material bonded to adjacent materials and to the

materials on which they rest. Proper drainage and other appropriate measures shall be taken to ensure continuing integrity of fills. Earth materials shall be used which have no more than minor amounts of organic substances. (orig. 8-25-86)

7. Fill Compaction

The County will require fills to be compacted to a minimum of 90 percent of maximum density as determined by ASTM D1557 unless prior approval by the County has been granted. ASTM D698 may be used for clays with a high plasticity index. The standard for fill compaction shall not apply to fills of less than 50 cubic yards which are placed on natural terrain with a slope flatter than 5H:1V, are less than 5 feet in depth, are not intended to support structures, and do not obstruct a drainage course. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 10-12-04; am. 7-17-18)

8. Ground Preparation for Fill Placement

The ground surface shall be prepared to receive fill by removing vegetation, topsoil, and other unsuitable materials. (orig. 8-25-86)

9. Fill Slopes

The slope of all permanent fills shall not be steeper than 2H:1V. Steeper slopes may be permitted for grading permits with the approval of the County, provided it can be adequately demonstrated in a soils/geologic report that such slopes are stable and will not undergo accelerated erosion. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 6-1-19)

10. Driveways and Private Streets/Roads

a. All street, road and driveway construction shall meet the Transportation Design and Construction Manual standards. (orig. 12-17-02; am. 10-12-04; am. 11-24-15)

b. For private streets/roads and driveways including turnarounds the maximum allowable vertical disturbance from the toe of fill to the top of cut measured perpendicular to the existing contours shall be 25 feet in vertical height. Planning and Zoning may approve vertical disturbance heights greater than 25 feet for grading permits where it is determined that slopes shall be sufficiently stabilized and restored to be congruent with surrounding conditions to the maximum extent practicable and the alignment of the driveway has been placed in the optimal location to allow for minimal disturbance. (am. 7-17-18; am. 6-1-19)

Relief for grading permits will also be considered if the applicant demonstrates that the proposed grading plan results in less overall land disturbance and that the relief is necessary to comply with the Preservation of Existing Terrain and Vegetation and Impact Mitigation Standards below. In determining whether to approve or disapprove the request, all technical evaluations, relevant factors, standards specified in other sections, and whether the applicant has adequately addressed the provisions of this Zoning Resolution shall be considered. (orig. 8-8-95; am. 11-12-02; am. 12-17-02; am. 7-1-03; am. 10-12-04; am. 3-26-13; am. 11-24-15; am. 7-17-18; am. 6-1-19)

(1) Parking areas adjacent to building structures and drainage facilities not a part of the streets/roads will not be considered as vertical disturbance. (reloc. 7-17-18)

c. Widths (including shoulders) of driveways and private streets/roads shall conform to the Transportation Design and Construction Manual. (orig. 8-8-95; am. 11-12-02; am. 11-24-15)

11. Protection of Adjacent Structures

Foundations or flatwork which may be affected by any excavation shall be underpinned or otherwise protected against settlement and shall be protected against lateral movement. Fills or other surcharge loads shall not be placed adjacent to any building or structure unless such building or structure is capable of withstanding the additional loads caused by such fill or surcharge. (orig. 8-25-86)

12. Setbacks

a. Setbacks for all grading, erosion and sediment control activities shall be at least 7 feet from property boundaries and at least 25 feet from off-site occupied structures. Planning and Zoning may waive setback requirements for land disturbance provided it can be adequately demonstrated that activities occurring within setback limitations will not adversely affect adjacent property or structures. A letter prepared by a Colorado registered professional engineer will be required that addresses the following:(orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 3-23-99; am. 4-27-04; am. 5-20-08; am. 6-1-

19; am. 12-6-22)

- i. Identify any potential issues caused by grading, erosion and sediment control activities relating to existing infrastructure, drainage patterns or visual and safety impacts. (orig. 12-6-22)
 - ii. Provide justification and rationale demonstrating that there will be no adverse impacts to adjacent property owners as a result of the proposed land disturbance. (orig. 12-6-22)
- b. Grading for streets/roads and driveways is exempt from setback requirements if it can be adequately demonstrated that grading activities will not adversely affect adjacent properties or structures in terms of, but not limited to, runoff and slope stability. (orig. 9-24-91; am. 7-17-18)

13. Stormwater

Any required drainage and infiltration structures and devices shall be designed and constructed in accordance with standards and criteria established in the Storm Drainage Design and Technical Criteria and as listed below. (orig. 8-25-86; am. 9-24-91; am. 12-17-02; am. 10-12-04; am. 7-17-18; am. 6-1-19)

- a. Drainage Structures and Devices: All drainage facilities shall be designed to carry surface and subsurface water to the nearest adequate street, storm drain, and natural watercourse or other juncture. (orig. 8-25-86)
- b. Water Accumulation: All finished areas shall be graded and drained such that water will not pond or accumulate except where the end use is a pond, reservoir infiltration area or structure or detention basin. Drainage shall be affected in such a manner that it will not cause erosion or endanger the stability of any cut or fill slope or any building or structure. (orig. 8-25-86; am. 9-24-91; am. 10-12-04; am. 7-17-18)
- c. Protection of Adjoining Property: When surface drainage is discharged onto any adjoining property, it shall be discharged in such a manner that it will not cause an increased hazard to the stability of any cut and fill slope or any building or structure. (orig. 8-25-86; am. 9-24-91)
- d. Subsurface Drainage: Cut and fill slopes shall be provided with subsurface drainage as necessary for stability. (orig. 8-25-86)

14. Erosion and Sediment Control

The following shall apply to the control of erosion and sediment from land disturbance activities: (orig. 8-25-86; am. 10-12-04)

- a. To the maximum extent practicable and in conformance with F.1., above, implementation of the erosion and sediment control plan shall precede grading activities. (orig. 9-24-91; am. 10-12-04; am. 12-6-22)
- b. Upon completion of land disturbance activities, disturbed areas, except for rock cuts and fills, shall be stabilized by adequate vegetative cover consisting of at least 70% of pre-existing vegetation conditions or other permanent soil erosion control measures which prevent accelerated erosion. (orig. 8-25-86; am. 9-24-91; am. 10-12-04; am. 7-17-18)
 - (1) Cuts and fills accomplished for all roads, driveways and other vehicular access shall be stabilized with adequate vegetative cover or other permanent soil erosion control measures which prevent accelerated erosion, unless the cut is in competent bedrock. (orig. 9-24-91)
 - (2) No project shall cause accelerated or increased off-site erosion. (orig. 9-24-91; am. 10-12-04)
- c. To the maximum extent practicable, sediment caused by accelerated soil erosion shall be removed from runoff water before leaving the site. (orig. 9-24-91; am. 10-12-04)
- d. All land disturbing activities shall be designed, constructed, and phased in such a manner as to minimize the exposure of disturbed areas and to prevent accelerated soil erosion to the maximum extent practicable. (orig. 9-24-91; am. 10-12-04)
- e. Cut and fill slopes shall be stabilized, and surface water damage to cut and fill slopes shall be prevented. (orig. 8-25-86)
- f. Fugitive dust emissions shall be controlled using the best available control technology as defined by the Colorado Department of Public Health and Environment as of the date of permit issuance. (orig. 8-25-86; am. 9-24-91)

- g. All temporary and permanent soil erosion and sediment control practices shall be maintained and repaired as needed to assure continued performance of their intended function in accordance with the details in the approved grading plans. (orig. 9-24-91; am. 10-12-04; am. 7-17-18)
- h. All topsoil, where physically practicable, shall be salvaged and no topsoil shall be removed from the site except as set forth in the approved plans. Topsoil and overburden shall be segregated and stockpiled separately. Topsoil and overburden shall be redistributed within the graded area after rough grading to provide a suitable base for areas which will be seeded and planted. Runoff from the stockpiled area shall be controlled to prevent erosion and resultant sedimentation of receiving water. (orig. 8-25-86; am. 9-24-91)
- i. Runoff shall not be discharged from the site in quantities or at velocities substantially above those which occurred before land disturbance except into drainage facilities whose design has been specifically approved by the County prior to the permit approval. (orig. 8-25-86; am. 3-23-99; am. 12-17-02; am. 10-12-04)
- j. The landowner and/or contractor shall take reasonable precautions to ensure that vehicles do not track or spill earth materials on to streets/roads and shall immediately remove such materials if this occurs. (orig. 8-25-86; am. 12-17-02; am. 10-12-04)
- k. Should an increase in sediment discharge occur or become imminent, the landowner and/or contractor shall immediately take all necessary steps to control such discharge. The landowner and/or contractor shall take prompt action to resolve emergency problems. (orig. 8-25-86; am. 12-17-02; am. 10-12-04)
- l. Permanent or temporary soil stabilization measures shall be applied to disturbed areas within 14 days after final grade is reached on any portion of the site. Soil stockpiles shall be permanently or temporarily stabilized within 14 days if the stockpile is not being actively utilized for construction purposes. Soil stabilization measures shall be applied within 14 days to disturbed areas which may not be at final grade, but will be left dormant for longer than 60 days. (orig. 9-24-91; am. 7-17-18)

15. Geologic, Floodplain, Wildfire, and Dipping Bedrock Hazards

Any activity taking place in an area zoned Geologic Hazard Overlay District or Floodplain Overlay District, or Wildland Urban Interface Overlay District, or Dipping Bedrock Overlay District shall meet the requirements of the appropriate sections of this Zoning Resolution. Land disturbance activities shall not create or aggravate unstable slopes, rockfall, landslide, or subsidence hazards or increase the risk of wildfire, flooding, or dipping bedrock hazards. (orig. 8-8-95; am. 3-23-99; am. 10-12-04; am. 10-4-22)

16. Preservation of Existing Terrain and Vegetation and Impact Mitigation

- a. Grading for cut and fill slopes shall not result in a staircase effect, except that retaining walls are permitted per paragraph "e." below. The edges of graded areas shall blend into the surrounding natural terrain/topography and contour of the land. (orig. 8-8-95; am. 11-12-02)
- b. The proposed grading shall occur in such a manner that it avoids, to the extent practicable, all rock outcroppings, existing trees over 6 inches in caliper, vegetation over 8 feet in height, and riparian, wetland and critical wildlife areas. If from the original documentation and/or field investigation it appears that a less impactful alternative exists, the County may require the grading plan to be revised. (orig. 8-8-95; am. 12-17-02)
- c. Excess material shall be graded in a manner which is similar to the natural topography and shall not be cast over the side of cut or fill slopes. (orig. 8-8-95; am. 11-12-02)
- d. Cut slopes that are in rock and are intended to be left exposed shall be graded to obtain a natural looking appearance, to the extent possible, in form to blend with surrounding terrain. (orig. 8-8-95; am. 11-12-02; am. 10-12-04)
- e. Retaining walls shall not exceed a maximum height of twelve (12) feet and shall be faced with stone or constructed with textured earth colored material that is identified in the grading plan. If a series of retaining walls is required, the horizontal distance between walls shall be a minimum of 4 feet. The minimum distance between walls shall be increased to 6 feet if either wall exceeds 8 feet in height. Retaining walls greater than 36 inches in height shall be constructed in accordance with the design prepared by a Colorado registered professional engineer. The design may require consultation with a geotechnical engineer, shall consider such factors as expansive soils, steep slopes and vehicles or structures near the walls, and shall include the following: (orig. 8-8-95; am. 11-12-02; am. 12-17-

02; am. 7-1-03; am. 10-12-04; am. 7-17-18)

- (1) Construction plans indicating how the proposed wall height will vary along its length. (orig. 10-12-04)
 - (2) Details with elevations showing top and bottom of wall for critical points along the wall length. (orig. 10-12-04)
 - (3) Supporting calculations that demonstrate an adequate factor of safety (minimum 1.5) for bearing capacity, overturning, sliding, and internal stability, including surcharge loads due to sloping backfill, adjacent vehicles and structures. When global stability analysis is required the minimum factor of safety is 1.3 for both the temporary and permanent conditions. (orig. 10-12-04; am. 12-6-22)
- f. The site shall be designed to use existing topography and existing vegetation to screen site disturbance. (orig. 8-8-95; am. 10-12-04)
 - g. Revegetation plans shall be similar to existing vegetation and feature the prominent use of plants which are indigenous to the area or as approved by the County. Seeding methods such as hydroseeding, drilling, seeding and raking in, or other seeding method may be required when necessary to quickly and effectively establish a groundcover for areas where other types of seeding may be ineffective. (orig. 8-8-95; am. 11-12-02; am. 10-12-04)
 - h. Any permanent erosion control and drainage improvements that are installed, as a result of land disturbance activities shall be designed to complement and blend with the natural topography of the land. (orig. 8-8-95; am. 10-12-04)
 - i. Where possible, turnouts shall be provided with the narrowest permissible road to minimize the extent of land disturbance. (orig. 11-12-02; am. 10-12-04)
 - j. When the grading operations encounter remains of prehistoric people's dwelling sites, remains, or artifacts of historical, paleontological or archaeological significance, the operations shall be temporarily discontinued. The developer shall notify Planning and Zoning, and the developer shall promptly contact the proper authorities to determine the disposition thereof. If required by state or federal authorities, the developer shall preserve the area of historical, paleontological or archaeological significance for a maximum period of 30 days to allow authorities to excavate and recover the items of significance. (reloc. 12-6-22)
17. Materials handling BMP's are required. At a minimum, BMP's shall include controlling waste such as discarded building materials, concrete truck washout, chemicals, litter and sanitary waste, as applicable. In addition, spill prevention and containment BMP's for construction materials, waste and fuel shall be provided, as applicable. (orig. 10-12-04)
 18. Maximum allowable height of a temporary stockpile is 50 feet measured from existing grade. The setback of the stockpile measured from the abutting property line to the edge of the stockpile is 2 multiplied by the height of the stockpile. The edge of the stockpile shall be no closer than the grading setback (7 feet from the abutting property line). The slope shall not exceed 3H:1V unless otherwise approved by Planning and Zoning for grading permits based on existing site conditions and topographic constraints. The temporary stockpile shall remain in place no longer than two years unless otherwise approved by Planning and Zoning for grading permits based on site conditions and construction duration. (orig. 11-24-15; am. 7-17-18; am. 6-1-19; am. 12-6-22)

G. Improvement Security

1. As a condition for the issuance of a Grading Permit, the County may require an improvement security in an amount necessary to ensure compliance with the performance standards in the event of default on the part of the applicant or of denial of the case by the Board of County Commissioners. Grading Permits associated with single family attached, detached or duplex residential structures with an active building permit will not require an improvement security. An improvement security is required for improvements in the Right-Of-Way or for improvements which may affect Right-Of-Way. (orig. 8-25-85; am. 9-24-91; am. 8-8-95; am. 3-23-99; am. 12-17-02; am. 7-1-03; am. 10-12-04; am. 10-13-09; am. 6-1-19; am. 12-17-19; am. 12-6-22)
 - a. Except for rough grading, the amount of the security shall be 100 percent of the cost of all grading erosion and sediment control items plus 100% of the cost of the work required for public streets/roads and for private streets/roads. The amount of security for rough grading shall be 25 percent of the

total cost of rough grading for all lands within the mountains and 10 percent for all lands within plains of the County. A contingency amount equivalent to 10 percent of the total cost of all work shall be added to the security amount. (orig. 3-23-99; am. 12-17-02; am. 7-17-18)

- b. The improvement security shall be in the form of cash escrow or a letter of credit. (am. 3-23-99)
 - c. The improvement security shall remain in effect until final inspections have been made, where required, and all grading work has been accepted by the County. Final acceptance of warranted Public Improvements shall conform to the Jefferson County Land Development Regulation. Upon final acceptance of improvements or warranted Public Improvements, securities will be released. (orig. 8-25-85; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 5-20-08)
2. Any letter of credit or deposit required pursuant to this section shall be payable to the Board of County Commissioners of Jefferson County and shall be for a minimum of 2 year. (orig. 8-25-86; am. 8-8-95; am. 10-12-04; am. 5-20-08)

H. Permit Completion and Closeout

1. Notice of Intent
 - a. A completed Form Letter N-2 stating that the final construction and grading are in conformance with the approved overall grading plan and Notice of Intent shall be submitted to Planning & Zoning prior to issuance of the Certificate of Occupancy. Form Letter N-2 shall be completed by a Colorado registered professional engineer. (orig. 6-1-19)
2. Grading Permit
 - a. The conditions of approval as specified in the approval letter and/or approved plan set. (orig. 8-25-86; am. 6-1-19)
 - b. Jefferson County staff confirms that the completed control measure operates in accordance with the approved site plan. (orig. 6-1-19)
 - c. The Certificate of Occupancy for residential structures will be issued once the Grading Permit certification is accepted and the Grading Permit is closed by Jefferson County staff. (orig. 6-1-19)

I. Release of Security for Grading Permits

1. Upon completion of the following, the improvement and/or maintenance securities will be released, and/or a Certificate of Compliance will be issued. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 7-17-18; am. 6-1-19)
 - a. Applicable provisions of this section. (orig. 8-25-86)
 - b. The conditions of approval of the Grading Permit. (orig. 8-25-86; am. 6-1-19)
 - c. Final stabilization of the site, which can include established vegetation, that will prevent accelerated erosion and other erosion control measures, where required. A uniform vegetative cover with a density of at least 70 percent of pre-disturbance levels shall be considered adequate vegetative cover for erosion control measures. (orig. 8-25-86; am. 9-24-91; am. 12-17-02; am. 7-1-03; am. 10-12-04)
 - d. Receipt of proof of compaction, where the compaction standard applies. Compaction tests shall be taken under the direct supervision of a geotechnical engineer. The geotechnical engineer or his designated representative shall observe grading activities on a full-time basis and shall take sufficient compaction test to enable the engineer to determine that the site is ready for the intended uses and shall so state on the compaction report. Compaction reports shall be signed and sealed and dated by a Colorado registered professional engineer. Compaction reports shall include the moisture density curves, location of test sites, soil types(s), density results, type of test and if a failing test, retesting of the site. The engineer shall provide a complete set of all test and observations and a report stating that the grading activities have been completed in substantial conformance with the approved grading plan, the requirements of this section, and the Land Development Regulation. (orig. 9-24-91; am. 3-23-99; am. 10-12-04)
2. An as-built plan is required by the County for the following:
 - a. Land disturbance activities that occur in a Floodplain Overlay District.
 - b. Large fills (greater than 1000 cubic yards).
 - c. Retaining walls as designated on the approved plans.

- d. The construction deviates from the approved plans.
 - e. Permanent non-structural and structural water quality control measures including dimensions, volume calculations and overall compliance with approved plans.
 - f. Other activities as required by Performance Guarantee and Warranty Section of the Land Development Regulation. (orig. 9-24-91; am. 8-8-95; am. 12-17-02; am. 10-12-04; am. 7-17-18)
3. Upon completion and acceptance of all items listed on the list of improvements and associated costs, the project performance guarantee may be reduced to the amount shown on the Exhibit A for adequate revegetation and temporary erosion and sediment control. Revegetation means that a density of at least 70 percent of the pre-disturbance levels or equivalent permanent methods have been employed. (orig. 12-17-02; am. 10-12-04)
 4. However, upon failure to complete the work, failure to comply with all of the terms of the permit or failure of the erosion and sediment control measures to function properly, the County may perform the required work or cause it to be done and collect from the permittee or surety all costs incurred, including administrative and inspection costs. Any unused portion of a deposit shall be refunded to the permittee after deduction by the County of the cost of the work. (orig. 8-25-86; am. 10-12-04; am. 7-17-18)

J. Enforcement

1. Inspections

The County may inspect the site and perform any necessary tests from time to time to ensure compliance with the permit conditions. (orig. 9-24-91; am. 8-8-95; am. 3-23-99)

2. Suspension and Revocation of Permit

The County may suspend, limit or revoke a permit for violation of any provision of this section, violation of the permit or misrepresentations by permit holder, his agents or his employees or independent contractors under contract with the permittee for a Notice of Intent or Grading Permit for an individual lot or within a common plan of development. The decision of the County to suspend, limit or revoke a permit may be appealed to the Board of Adjustment. No work shall be performed while an appeal is pending except as authorized by the County. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 12-17-02; am. 6-1-19)

3. Enforcement Response

a. The escalation process for enforcement actions includes verbal warnings, written notifications, revocation of permits, denial of plan review, withholding of permits, withholding inspections, stop work orders, issuance of zoning violations (civil process), issuance of illicit discharge violations (civil process), fines associated with the illicit discharge violation and/or using the performance guarantee to hire a separate contractor to complete the work. The escalation process does not have to occur in that order. (orig. 6-1-19; am. 12-6-22)

b. The escalation process for chronic and recalcitrant violators of control measure requirements includes verbal warnings, written notifications, revocation of permits, denial of plan review, withholding of permits, withholding inspections, stop work orders, issuance of zoning violations (civil process), issuance of illicit discharge violations (civil process), fines associated with the illicit discharge violation and/or using the performance guarantee to hire a separate contractor to complete the work. The escalation process does not have to occur in that order. (orig. 6-1-19; am. 12-6-22)

3. Court Action

Nothing in this section shall be construed to prevent the Attorney's Office, at their discretion, from filing a court action based upon a violation or potential violation of this section. (orig. 3-23-99)

4. Right of Entry

Whenever necessary to enforce the provisions of this section the County can enter the premises at all reasonable times to perform any duty imposed by this section. If such entry is refused, the County shall have recourse to every remedy provided by law to secure entry. If a Land Disturbance Permit is suspended or revoked, or if a Stop Work Order has been issued, the County shall have the right to enter the site to complete the work allowed under the grading permit. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 3-23-99; am. 12-17-02; am. 10-12-04; am. 7-17-18)

5. Stop Work Orders

When any work is being performed which is not in compliance with an approved permit and/or the

provisions of this section or any other applicable law, rule or regulation, the County can order the work stopped by serving written notice on any personnel engaged in performing the work. Such person shall immediately stop such work until authorized by the County to proceed. If there are no persons present on the premises, the notice may be posted in a conspicuous place and the notice shall state the nature of the violation. The notice shall not be removed until the violation has been vacated or authorization to remove the notice has been issued. Failure to comply with any Stop Work Order is a violation of the Zoning Resolution, the Grading Permit and/or the Notice of Intent. (orig. 8-25-86; am. 9-24-91; am. 8-8-95; am. 3-23-99; am. 12-17-02; am. 10-12-04; am. 7-17-18)

6. Violations of Other Regulations

Violations of this section may also cause violations of other State and/or Federal regulations and result in additional fines and penalties. (am. 10-12-04)
