

TIPS FOR SIGNING UP FOR A COVID-19 VACCINE

Is it your turn to get the COVID-19 vaccine?

It can be challenging to know where to start. Here are the top things to know and some helpful tips for signing up. Remember that vaccine supplies are still very limited, and even if you are eligible and can sign up, you might have to wait days or weeks to get your vaccine.

- **Sign up directly with a local vaccine provider.** Health care providers, retail pharmacies and public health clinics have their own registration websites. You may have to create an account, and if you receive a reference code, write it down. For a list of providers, visit [covid19.colorado.gov/vaccine](https://www.colorado.gov/vaccine). Additionally, the National Renewable Energy Laboratory (NREL) created a [COVID-19 Vaccine Finder](#) tool that may be helpful for finding an appointment.
- **You can sign up with multiple vaccine providers if you'd like**, and you do not have to be a patient or member of a health care provider to get the vaccine there.
- **If you are on a wait list**, check your email, voicemail and/or text messages often so you do not lose your spot in line.
- **You can get vaccinated in any city or county.** You are not required to get vaccinated in the community you live in.
- **The vaccine is free.** Providers should not ask you to pay for the vaccine or other administrative costs, regardless of your insurance status. If you have insurance, the provider may seek reimbursement from your health insurance company for these fees, but you should not be charged.
- **You should not be asked to provide ID when registering or when you go to your appointment.** However, you may be asked to show proof of health care worker/first responder status or verify your age.
- **You do not need to be a U.S. citizen**, and you will not need to prove lawful presence to get a COVID-19 vaccine in Colorado.
