

Now Accepting Applicants

Are you between the ages of 17-24 and obtained your high school diploma or high school equivalency (GED)? Do you have a passion for technology and are looking for a nontraditional pathway into the IT field?

Regis University is offering an Undergraduate Certificate in Full Stack Web Development. Full Stack refers to the entire "stack" of software applications and programming languages used in both front-end and back-end web development. This certificate can be earned in 12 months or less!

Regis University is partnering with the Jefferson County Business & Workforce Center to provide financial assistance that can make this a low, or no, cost program for you to attend.
