Lost Property Resources	Mortgage payment status, utilities, insurance,etc	No	No	No	No	No

TerraSource
Take-aways and suggestions
1.17.22

After an evaluation of content and function of [TerraSource](#) in comparison to [Cal Fire](#), [Tahoe Living with Fire](#), [Rotary Wildfire Ready](#), and [Boulder Wildfire Partners](#), we suggest the following additions and changes to TerraSource. To begin these improvements, we will first need to discuss site design and function with Public Affairs and determine if the improvements can be made within CivicPlus or if a third-party webhost is needed.

Site content:

- Resources for emergency preparedness:
 - Information on emergency shelter for pets and livestock
 - Evacuation routes
 - Information on how to prepare and pack in case of evacuation
- Information and resources for recovery following a wildfire
- Recommended services for home evaluation
- News and upcoming educational events related to wildfire
- Volunteer opportunities and resources to help with community preparedness
- Interactive data and maps related to wildfire (maps of fire districts, WUI, etc)
- List of accounts to follow for emergency communication (social media)
- Resources for landowners to conduct fire mitigation (grants, equipment rental, land assessments, etc)

Web design:

- Search function that allows for search of *only* TerraSource (not full Jeffco website)
- Menu bar allowing for easier navigation
- Increased use of photo/video/map elements
- Improved brand identity
